

HEADTEACHER MESSAGE

Dearest BGL Family,

What a glorious week we've had in the sunshine! A particular highlight has been the phenomenal Year 3 and 4 performance, which truly blew us away. From the fantastic acting and impeccable comedic timing to the joyful singing and sheer fun on stage, it was a delight from start to finish. We've received so many wonderful messages of praise, with many saying it was the best performance BGL has ever produced – the bar has certainly been set high!

Today, we also welcomed members of our Local Academy Council (formerly known as Governors) for their termly Curiosity Visit. These visits provide an opportunity for LAC members to see our policies in action and engage with life at BGL. Our children confidently showcased their wider curriculum learning, and we had rich discussions around our BGL wellbeing offer – a testament to the vibrant and supportive environment we are so proud of.

As we approach the end of another busy and rewarding term, I would like to take this opportunity to thank all our children, parents, staff, and the wider BGL community for their continued support and enthusiasm.

Wishing you all a restful and joyful Easter break!

Mrs K Esa

PICTURE NEWS

In the news this week

Ex-England football manager, Sir Gareth Southgate, has shared his thoughts on young people, and his fears that many are spending too much time online, gaming and using social media. He stated how important it is for young people to have positive role models beyond social media influencers. Drawing on his own experiences during a talk for the BBC, he said the UK needs to do more to encourage young people – particularly young men – to make the right choices in life and not be afraid of failure.

Things to talk about at home ...

- Who are your role models? What qualities do they have? Ask someone at home about their role models.
- Do you think anyone can be a role model?
- Taking into consideration what Sir Gareth Southgate said, do you feel it's important to have role models who aren't online influencers? Why?

What Parents & Educators Need to Know about

INSTAGRAM

AGE RESTRICTION
13+

Instagram remains one of the world's most popular social media platforms, especially among teens – with around 70% of 13 to 17-year-olds using it. Owned by Meta, Instagram allows users to share photos and videos, create interactive 'stories', broadcast live, send private messages and follow others. With regular updates and new features, it's essential for parents and educators to stay informed about how children are using the app – and what the risks are.

WHAT ARE THE RISKS?

EXCESSIVE SCREEN TIME

Instagram's design encourages prolonged use through endless scrolling of trending content and generating a fear of missing out (FOMO). Children can quickly lose track of time browsing posts from friends, influencers, and strangers, which may disrupt their day-to-day activities.

AI CHATBOT CONCERNS

Meta's AI, which is available on Instagram, allows users to chat with an in-app chatbot. While often helpful, it can have boundaries for young users, who may see it as a real friend or confidant. Privacy issues also arise, as conversations may not be as secure or private as children assume.

RISKS OF GOING LIVE

The live stream feature allows real-time broadcasting to followers – or anyone, if the account is public. This increases the chance of unwanted contact from strangers and pressure to act in ways that gain attention, including engaging in inappropriate behaviour. Viewers may also post offensive or harmful comments during live sessions.

THREADS INTEGRATION

Threads is Instagram's sister app for public, text-based conversations. Posts from Threads appear in users' Instagram feeds and can lead children to view, share, and comment on public conversations with strangers. The content may not always be age-appropriate and can be misleading or false.

SCHEDULED MESSAGING

Instagram's newer ability to schedule direct messages means that children could receive messages late at night or early in the morning. This can disrupt their sleep or keep them preoccupied before the school day even begins.

EXCLUSION AND LOW SELF-WORTH

Feeling left out online can have a real emotional impact. Being left out of photos, receiving fewer likes, being unknowned, or being ignored in chats and comments can leave children feeling excluded, which often leads to feelings of low self-worth. There is a risk this can lead to reduced self-esteem and a sense of not belonging.

Advice for Parents & Educators

USE INSTAGRAM'S SUPERVISION TOOLS

Instagram's built-in Family Centre lets parents monitor how much time their child spends on the app. Spectralink 'teen accounts' are private by default, and offer controls on who can message them. Make sure that children use their real age when registering their account to ensure they have these protections.

OPEN UP THE CONVERSATION

Talk regularly to the children in your care about what they enjoy on Instagram – and what makes them uncomfortable. Encourage honest chats about likes, body image, and online approval. Reassure them that they don't need to edit their appearance or chase likes to feel valued.

SET BOUNDARIES FOR THREADS AND AI

Parental controls on Instagram also apply to Threads. These allow parents to monitor time spent in the app, check between likes and adjust exposure to sensitive content. Discuss AI features, too, therefore helping children understand that chatbots aren't real people and should be used with care.

BE MEDIA-SAVVY WITH INFLUENCERS

Parents should follow a few of the influencers their child watches, so they can better understand the content they're seeing. Use this as a springboard to talk about the difference between genuine recommendations and paid promotions – and how online personalities can shape opinions and behaviour.
